

Choosing a Webhost Provider

Here is a brief list of website hosting providers to give you an estimate for hosting costs:

Provider	iThemes WordPress Managed Hosting	LiquidWeb WordPress Managed Hosting	FlyWheel WordPress Managed Hosting	wpEngine WordPress Managed Hosting
Site Limit	2 websites	1 website	1 website	1 website
Space	20 GB	20 GB	5 GB	10 GB
SSL*	Included	Included	Included	Included
Backups	Included	Included	Not Provided	Not Provided
Security Plugin	Included	Not Provided	Not Provided	Not Provided
Remote Management	Included	Not Provided	Not Provided	Not Provided
Price	\$15/month	\$29/month	\$23/month	\$35/month
Website	https://ithemes.com/wordpress-hosting/	https://www.liquidweb.com/products/managed-wordpress/	https://getflywheel.com/pricing/	https://wpengine.com/plans/

* SSL creates a secure link between the website server and the visitor's browser.

Personally, I recommend iThemes because they are part of LiquidWeb, using the same servers and excellent support, and include BackupBuddy, iThemes Security Pro, and iThemes Sync remote management.

Discloser: I am an affiliate with iThemes. If you use [this special link](#) to signup with iThemes Hosting, I will earn a commission. This commission comes at no additional cost to you. Please understand that I have experience with iThemes and I recommend them because they are helpful, not because of the small earnings I make. Please do not spend any money using [the special link](#) unless you feel it is the right fit for your needs.

Sadly, I do not recommend GoDaddy, BlueHost, Site5, or SiteGround. I've had bad experiences with them.

When searching for a website host, I encourage you to read the article about Endurance International Group, the owners of BlueHost, HostGator, Site5, Constant Contact and 70 other brands.
